

CPNS 102 – WAN Basics and Routers – 3 credit hours

This course is designed to prepare students to apply and understand the basics of networking hardware. The course covers beginning router configurations, routed and routing protocols, and introduction to LAN switching. This is the second of a four-part series to prepare students for CISCO Certified Networking Associate examination.

Prerequisite: CPNS 101 with grade of C or better or concurrent enrollment in CPNS 101. You must have either completed CPNS 101 or be enrolled in CPNS 101 and CPNS 102 at the same time. Waivers are not available.
